

## Second Wives Sing the Blues

Women can make a lot of noise. Blowhards, I believe they are called in this country—especially when it comes to reforming divorce laws.

The loudest of all are usually the women who left and took the children, the house, and half the community property, and are still taking through little extras like alimony and child support.

To hear the second wives sing it, the song is ended but the sour notes linger on. They have now organized a choir of protestors who put out a weekly song sheet on yellow paper, citing case histories of ex-wives who live it up while the penniless ex-husband works his fingers to the bone. Wife No. 2 also is working her fingers to the bone.

*My heart bleeds for the whole lot. Somehow, though, I can't seem to work up enough sympathy for the new wives.*

Any woman marrying a man with an ex calling for monthly support must know before going into marriage that orange crates are to be their furniture for a long, long time to come.

Crying to the high heavens or releasing case histories on yellow paper solves nothing.

### ACTION IS YOUR ANSWER!

These women are members of that organization called United States Divorce Reform, Women's Division. But like most women's organizations, they do nothing constructive, just talk and write and talk some more.

And in this case, I see a good reason for your lack of action. You women are really afraid to see the suggestions in action or put into law because you sneakily figure you never know when the shoe may be on the other big foot.

I'm referring to the day when you, the second wife, may also be in dire need of child support and alimony.

The whole world knows that when a woman actually decides to do something, there is nothing that can stop her.

So if you're truly serious about changing divorce laws, pray tell, what is stopping you?

As long as so much fuss is made about this being a political year, here is a platform you can act on that can help both parties, yours and his.

Sunday I'll list the platform made up by new wives on what to do with old wives. Read it and send along your recommendations.

## Halldale Summer Program Continues Through August

The first half of the Halldale Avenue School summer recreation program has been completed. Activities for youngsters will continue through Aug. 28, according to a Los Angeles City Schools spokesman.

The summer program is sponsored by the Youth Services Division of the school system and offers a daily program for youngsters of elementary school age.

The program includes two craft classes, folk dancing, story telling, free movies, and supervised play on the recreation equipment. Craft classes are limited to 25 persons and all materials are supplied without charge.

Special trips are planned during the summer. Trips include Cabrillo Beach, Knott's Berry Farm, and Griffith

Park Zoo, and trips to meet other schools in volleyball, baseball, and track.

The Halldale PTA, headed by Mrs. Margaret Kenyon, will treat youngsters to scones during the summer. The playground is open from 10:30 a.m. until 5 p.m. Monday through Friday. Mrs. Jeanne Hoyt and Bruce Go-forth are in charge.

### Local Secretary Gets Certificate

Mrs. Ann Allred, 2743 Van Buren St., Long Beach, has successfully passed a two-day examination for certification as a certified secretary. Mrs. Allred is a secretary in the industrial engineering department of the National Supply Division, Armco Steel Corp. She had been employed there for 14 years.

### GOP Dinner Set

The Los Angeles County Republican Assembly will honor Senator Barry Goldwater at a dinner Saturday night. Tickets for the event are \$25 each and may be reserved by calling MA 5-1251.

## MacPhee to Join College Faculty Here

Dr. Donald A. MacPhee has been appointed Associate Professor of History on the faculty at California State College at Palos Verdes.

Dr. Leo F. Cain, president of the college, said Dr. MacPhee will participate in total college planning activities with the staff. He will join the faculty Sept. 1.

Dr. MacPhee received his master of arts degree from Seattle Pacific College and studied for his doctorate at the University of California, Berkeley. He is presently on the faculty at San Francisco State College.

## Harbor City Storm Drain Completed, Chace Reports

Supervisor Burton W. Chace has announced completion of all work on the \$406,619 Frampton Avenue storm drain in Harbor City.

The project was built under the supervision of M. E. Salsbury, chief engineer of the County Flood Control District.

Chace said a contract was awarded last Sept. 17 by the Board of Supervisors to a joint venture composed by the Len-Sal Corp. and Paul Vukich Construction Co. of Gardena.

The project involved construction of four separate drainage lines totaling more than a mile in length. Reinforced concrete box and pipe conduits were built.

The project was financed as a part of the \$225 million bond issue approved by County voters in 1958.

### Funds Approved

An allocation of \$110,000 for landscaping on the San Diego Freeway has been approved by the State Highway Commission. The money will be used for trees, shrubs and ground cover along the freeway banks.

The project was built under the supervision of M. E. Salsbury, chief engineer of the County Flood Control District.

Chace said a contract was awarded last Sept. 17 by the Board of Supervisors to a joint venture composed by the Len-Sal Corp. and Paul Vukich Construction Co. of Gardena.
